

## LOW MOLECULAR WEIGHT HYALURONIC ACID

ABC's Primetime Live suggests hyaluronic acid may "ward off the aging process by helping the cells of the body thrive and retain moisture, keeping joints lubricated, protecting the retina in eyes and *keeping skin smooth and elastic.*"

Researchers worldwide are exploring hyaluronic acid's value in areas such as dermatology, sports medicine, eye health, wound healing, interstitial cystitis, and oral health! ♦

### ***Just look at all hyaluronic acid can do!***

- Restores elasticity and hydration to skin, giving it a more youthful appearance
  - Cuts healing time by as much as 40%
  - It is the natural "shock absorber"
  - Reduces inflammation and pain
- Improves sleep quality, aiding in the natural repair processes during sleeping
  - Improves joint lubrication and the cartilage structure of joints.
  - Protects the retina of the eye from injury.
- Supports the healthy structure of all body parts, providing resiliency, movement with less friction.
  - Helps regulate the repair process of any injured body tissue.
- Acts as a powerful antioxidant for inflamed body tissue, protecting against repetitive wear strain and chronic degeneration
- Provides structural integrity to the cellular matrix that inhibits bacteria and viruses from reaching cells

**Of subjects taking 6 capsules daily for 6 weeks, over 85% noticed improved or remarkably improved facial moisture, skin smoothness, and improved elbows, knees, and heels. About 65% reported improved or remarkably improved joint mobility, and about 45% reported marked or some vision improvement. ♦**
